QUICKFIX

QuickFix is a platform that connects people with nearby skilled workers for real-world physical tasks — like plumbing, painting, or repairs — in just a few taps.

➔ One tap to trusted local help
➔ Built for real-world problems, not virtual gigs

Find Help Now

QUICKFIX

BUILD FOR REAL WORLD HELP

We're not just fixing things — we're fixing how people get help

In a world full of apps for groceries, cabs, and food — **QuickFix** steps in where **tech was missing: real-life physical help.**

Whether it's a leaky tap, cracked tile, or unassembled furniture, we connect everyday people with trusted, local skilled workers — instantly and securely

We're a team of creators, problem-solvers, and coders who believe that:

✓ Finding help shouldn't be stressful
✓ Skilled people should be discoverable
✓ And tasks should be done without delay

 Smart tech meets everyday tasks — that's the **QuickFix** way.

Problem We're Solving

The Urban Struggle: Trust, Time, and Tools

🔍 Help Chaos

People often panic during urgent tasks with no trusted help in sight. There's no quick, reliable way to find local, verified workers.

💰 Premium-Only Platforms

Existing apps focus on expensive or digital-only services. They ignore basic, hands-on tasks most people urgently need.
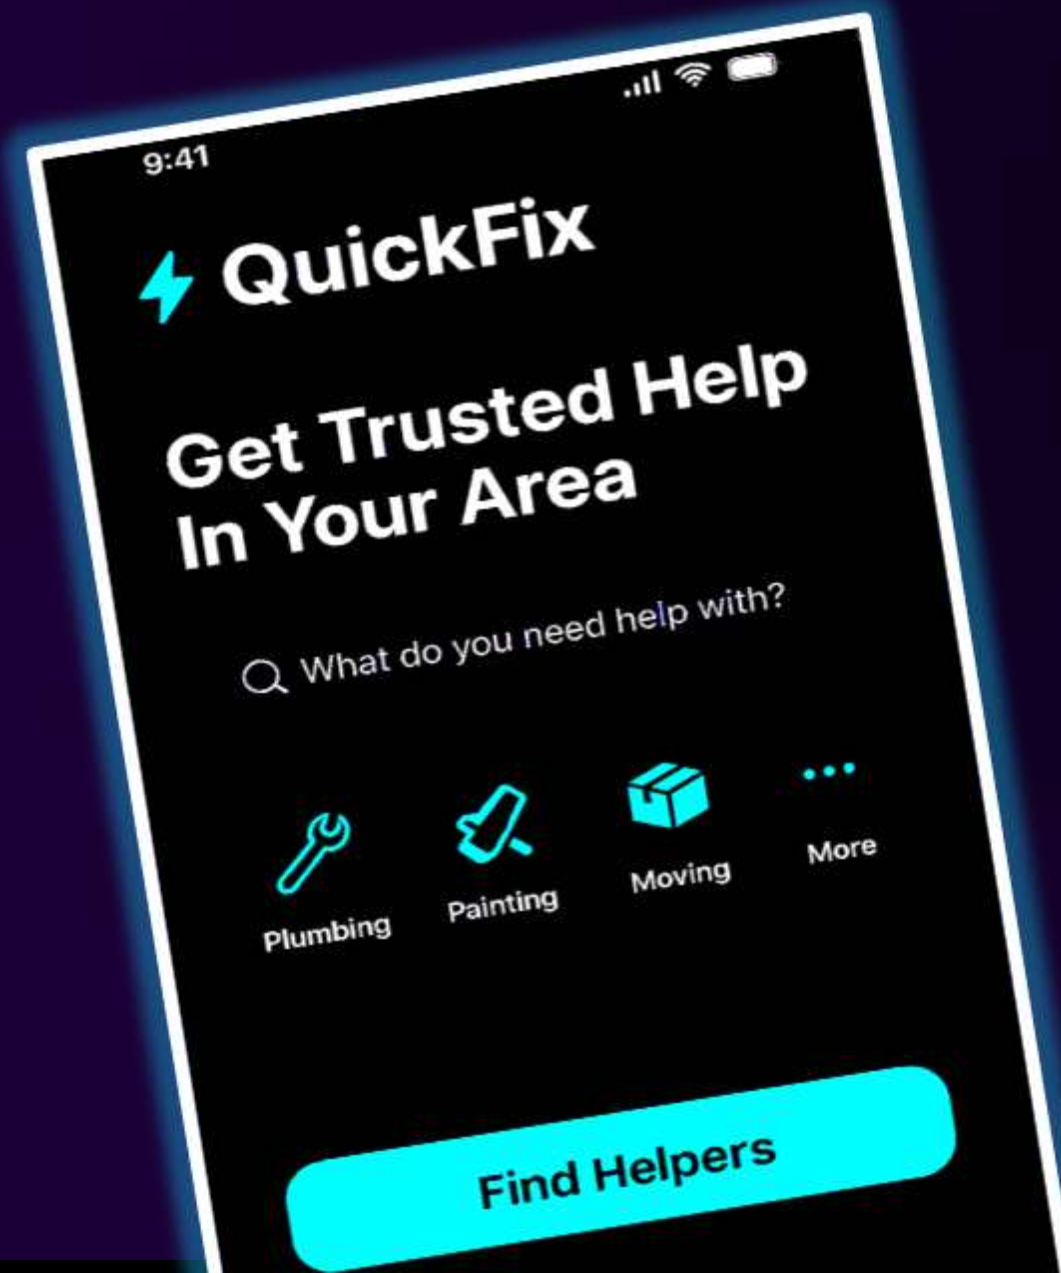

Invisible Workforce

Skilled laborers lack digital access and visibility. As a result, they miss out on jobs right in their area.

⬡ **The Impact?**

Wasted time. No trust. Missed income. Rising unemployment.

Our Solution

QuickFix: The Fast Lane to Fixes

Hyperlocal & Skill-Based Matching

We connect users with verified helpers within a 5–10 km radius, based on the exact skills they need — no delays, no guesswork.
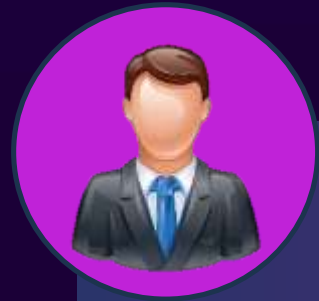

Real-World Help, Not Just Digital

From leaky taps to wall painting, we focus solely on hands-on, physical tasks — the kind you can't outsource online.

Simple, Safe, and Seamless

With easy task posting, built-in chat, and optional profile verification, QuickFix makes the whole process feel effortless — and trustworthy.

Two-Sided Power – One Seamless Platform

QuickFix bridges the gap between local helpers and people in need.

For Users

Get Help, Fast

- 🔍 Post tasks with timing, location & budget
- ⚡ Instant match with verified local helpers
- 💬 Chat, confirm, rate, and pay — all in one app

For Workers

Get Discovered. Get Paid

- 📝 Easy registration with basic info
- 📅 Steady, local job opportunities
- ✨ Build reputation and grow income

Why Quickfix Matters?

Sustainable Income

Providing a stable and reliable income source

Digital Empowerment

Digitally empowering unorganized labor

Job Creation

Generating new employment opportunities for offline workers

What Makes QuickFix Stand Out?

Live Dashboard

See tasks appear in real-time.

Rating & Reputation

Build trust within the platform.

Multilingual & Mobile-Ready

Platform available in multiple languages.

Built-In Chat

Connect instantly with the helper.

Modern UI

Easy to use, even for beginners.

Notifications

Seamless communication for smoother task
coordination — fast, direct & secure

Secure Backend
(Js + MySql + Node.js)

Robust backend architecture ensuring data
security, fast access, and dynamic updates.

Responsive Frontend
(HTML, CSS, JS,
php)

Sleek, modern UI built for mobile & desktop,
with intuitive user experience at its core.

MARKET POTENTIAL

A Billion-Dollar Need, Untapped!

Urban Time Crunch
With rising urban stress & shrinking free time, demand for instant help is exploding.

Skilled Workers Are Unemployed
Millions of workers with hands-on skills lack digital exposure — QuickFix bridges the gap.

Scalable Across Cities & Nations
A universal model, customizable for any locality, making QuickFix a globally scalable solution.

FUTURE DEVELOPMENTS
